

Drugs and Alcohol Policy

The Company is committed to maintaining a healthy, safe and productive working environment for its employees. The Company recognises the impact that drugs and alcohol may have on an individual's ability to work safely and correctly and aims to ensure a working environment free from the inappropriate use of substances and where employees are able to carry out their duties in a safe and efficient manner.

The use of drugs or the consumption of alcohol by employees is inappropriate at any time during working hours and before work. If your doctor prescribes drugs that may affect your ability to perform work, you must discuss this with the General Manager.

The dispensing, distribution, possession, use, sale or offering to buy controlled drugs or alcohol at work is prohibited. Any such activity (including reasonable suspicion) will be reported to the police. Any employee found to be in breach of these rules will be liable to disciplinary action that may result in dismissal. This will apply whether or not there is any actual threat to health and safety.

Testing for illegal substances and alcohol

The Company reserves the right to introduce testing, including random testing, for illegal substances and alcohol. When testing for alcohol a trained employee will use a standard breathalyser or other testing device/method deemed appropriate to the business. When testing for drugs a trained employee will use an oral fluid test device from a Food and Drugs Administration accredited or similar supplier.

Any refusal to be tested will be regarded as a refusal to carry out a reasonable instruction and will normally result in dismissal.
